

Because I Am The Eldest Daughter

Part of the **Growing up: Teen years, 15. Collection**

By Hyemin Kim

It's tough being the eldest daughter of the family.

It wasn't you who achieved this,
That's what they said.

You would be nothing without them,
The words that stuck in my head.

Oh well.

I'm glad I moved past that.

Being the eldest daughter is a hard job.
You have to be strong, brave, resilient,
Full of emotion yet as cold as stone,
Show expressions yet have a good and prepared poker face.

You have to do well, not brag, be proud yet not too full of yourself
Be grateful but not disregard your efforts,
Know when to respect, know when to stand up for yourself and others and never back
down
You have to be the one to pray for others and yourself,
The one who helps your siblings, parenting them while also trying not to be the parent

Be annoying yet not
Be playful and joyful, but also sad and angry when time calls for those emotions.

Being the eldest daughter of the family is hard. But it's also rewarding.
So hang in there, it'll be alright in the end.

With love, xoxo,
Your dear eldest daughter.
