2. Why have Holden and Conniff shunned traditional advertising? Is that a good idea? Why or why not?

I think it has its own advantages and disadvantages. For example, some advantages are a more personal connection with customers and some disadvantages are that it is very dependent on online reputation.

3. Select another type of business (NOT A RESTAURANT) and describe how it could use social media networking to promote its goods and services.

For example like a business such as an electronics retailer can use networking to promote itself by using instagram and communications with customers through reviews, customer service, and even discounts and promotions.
